

Mini-symposium

# Animal behaviour in changing environments

## ecological causes and consequences of food choice

Thursday 1 June 2017 – NIOZ Texel – Oceanzaal

- 13:05 Introduction  
*Jan van Gils (NIOZ)*
- 13:15 Food for thought: the effects of early-life feeding schedules on adult foraging decisions in European starlings  
*Melissa Bateson (University of Newcastle, UK)*
- 14:00 Decreasing marine food levels increase persistence of threatened anadromous populations  
*André de Roos (University of Amsterdam)*
- 14:30 Break
- 15:00 Variation in migration patterns of black-tailed godwits  
*Mo Verhoeven (University of Groningen)*
- 15:30 Red knot habits: an optimal foraging perspective on intertidal life at Banc d'Arguin  
*Thomas Oudman (NIOZ)*
- 16:15 Did we miss our funeral? Why biology should not let go of the environment  
*Theunis Piersma (NIOZ)*
- 16:45 Drinks

Free entrance

NIOZ Royal Netherlands Institute for Sea Research, Landsdiep 4, 't Horntje, Texel  
If you like to attend the symposium please send an email before 26 May to [meet@nioz.nl](mailto:meet@nioz.nl)
